Date: July 1999

Our Christmas in July Luncheon is fully booked and members are looking forward to the event. Jean and her helpers are putting a lot of work into this function, it should be a great lunch.

There have been a few complaints about people attending club activities whilst suffering from colds. Catching colds for older members can result in complications and be quite dangerous to their long term health. Could all members and guests please refrain from attending the club whilst they are infectious, thanks for your consideration. Quite a few of our members have come down with the flu this year, I wish them a speedy recovery.

The Annual General Meeting is coming up in September, all positions will be declared vacant and all nominations accepted. I would like to encourage everybody to seriously consider taking an active role in the running of the Club, a good way of doing so is to stand for one of the many positions on the committee. If you are unable to stand for election you might consider volunteering for office duty, this is a good way of meeting people and staying in touch.

Many thanks go to Lend Lease for their donation and laying of concrete to complete our paths.

Could members ensure that the heaters are turned off when they leave the club, this is the responsibility of the user.

Ros Hinton  
President
